Ex3

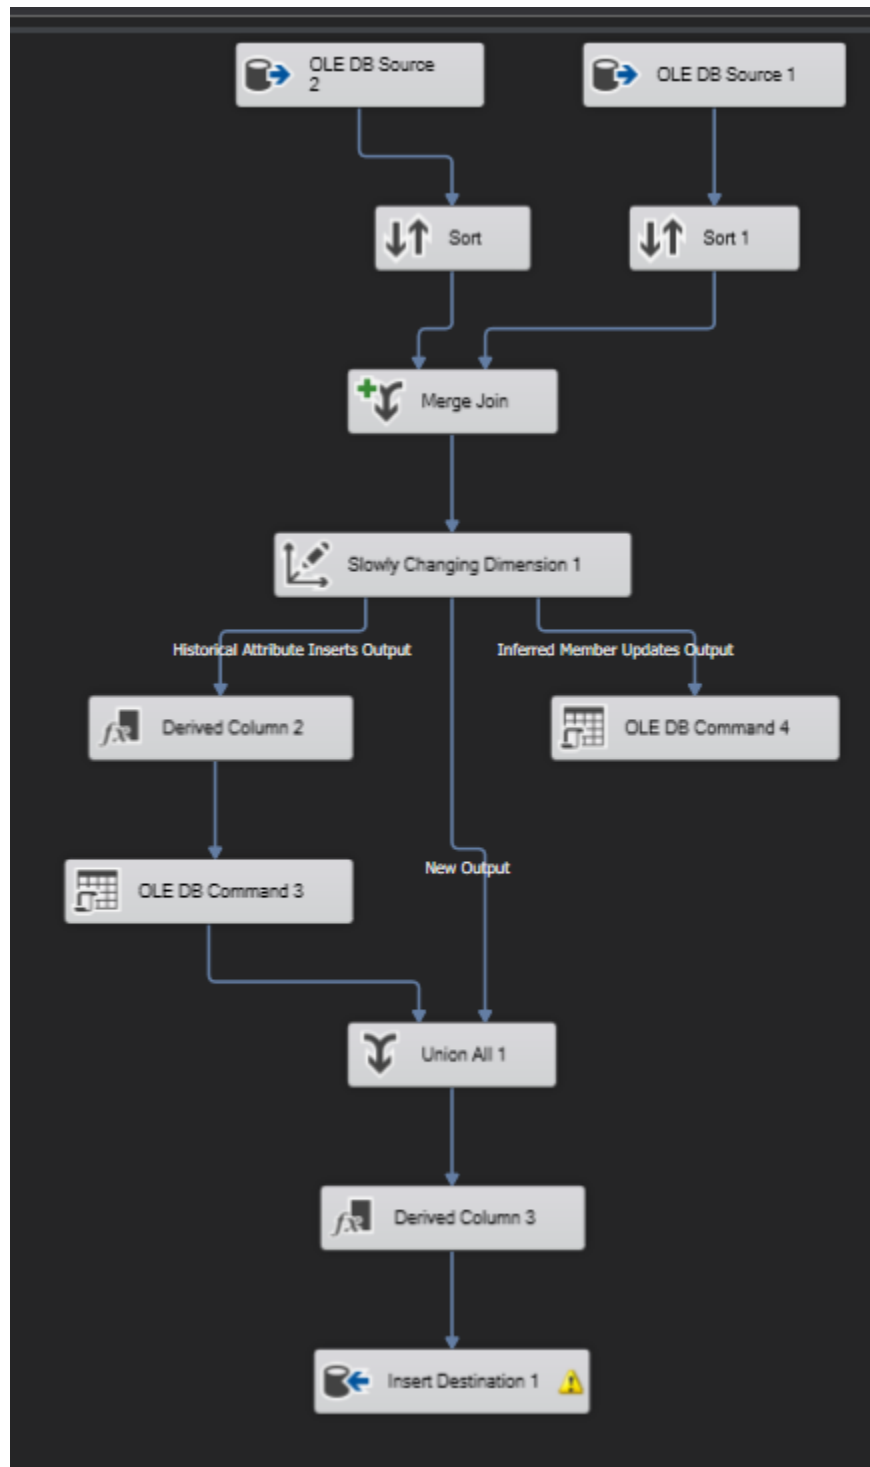

The image shows a screenshot of a SQL query editor window. The title bar at the top reads "SQLQuery3.sql - DE...M52SA\Maciej (56))" with standard window controls. The editor contains a SQL script to create a table named "DIMCustomers". The script defines several columns: "idkey" as an integer with an identity property (1,1), "id" as an integer not null, "first_name", "last_name", "street", "city", "state", "country", "phone", and "email" as text fields not null, and "eff_start_date" and "eff_end_date" as date fields. The script is syntactically correct and ends with a semicolon.

```
CREATE TABLE DIMCustomers (  
    idkey int IDENTITY(1,1),  
    id int NOT NULL,  
    first_name Text NOT NULL,  
    last_name Text NOT NULL,  
    street Text NOT NULL,  
    city Text NOT NULL,  
    state Text NOT NULL,  
    country Text NOT NULL,  
    phone Text NOT NULL,  
    email Text NOT NULL,  
    eff_start_date Date,  
    eff_end_date Date  
);
```

Ex4

Ex5

```
DECLARE @StartDate date = '20100101';

DECLARE @CutoffDate date = DATEADD(DAY, -1, DATEADD(YEAR, 30, @StartDate));

WITH seq(n) AS
(
    SELECT 0 UNION ALL SELECT n + 1 FROM seq
    WHERE n < DATEDIFF(DAY, @StartDate, @CutoffDate)
),
d(d) AS
(
    SELECT DATEADD(DAY, n, @StartDate) FROM seq
),
src AS
(
    SELECT
        TheDate          = CONVERT(date, d),
        TheDay           = DATEPART(DAY, d),
        TheDayName       = DATENAME(WEEKDAY, d),
        TheWeek          = DATEPART(WEEK, d),
        TheISOWeek       = DATEPART(ISO_WEEK, d),
        TheDayOfWeek     = DATEPART(WEEKDAY, d),
        TheMonth         = DATEPART(MONTH, d),
        TheMonthName     = DATENAME(MONTH, d),
        TheQuarter       = DATEPART(Quarter, d),
        TheYear          = DATEPART(YEAR, d),
        TheFirstOfMonth  = DATEFROMPARTS(YEAR(d), MONTH(d), 1),
        TheLastOfYear    = DATEFROMPARTS(YEAR(d), 12, 31),
        TheDayOfYear     = DATEPART(DAYOFYEAR, d)
    FROM d
)
INSERT lab4_produtcion.dbo.DIMDate(date, quater, year, month, week_day)
SELECT TheDate as "date", TheQuarter as quater, TheYear as year, TheMonth as month, TheDayOfWeek as week_day FROM src option(maxrecursion 0);
```

Ex6

```
create table DIMCarrier(  
idkey integer Identity(1,1),  
[carrier_id] varchar(50)  
    , [carrier_name] varchar(50)  
    , [address] varchar(100)  
    , [tax_id] varchar(50)  
    , [contact_person] varchar(50),  
    eff_start_date Date,  
    eff_end_date Date  
);
```
